Summary

Digital product, production and audience growth leader with 12+ years of experience across mobile apps, websites, sport, content, customer journeys and digital delivery.

I currently lead digital product and growth work for GolfTrak across app, web, email, analytics and customer content. My background combines hands-on delivery, product ownership, sport and fan engagement, stakeholder management and experience coordinating high-priority work across fast-moving teams.

Targeted fit for this role

- **Intake & Prioritisation:** Track record of managing the intake, scope, prioritisation and delivery of digital requests across product, marketing, content, commercial, support and leadership teams.
- **Cross-Channel Delivery:** Hands-on delivery experience across mobile apps, websites, customer portals, email, social media, app stores, digital campaigns and customer support platforms.
- **Requirements Translation:** Turn business goals, customer needs and technical requirements into clear plans, user stories, workflows and practical solutions.
- **Digital Operations:** Oversee day-to-day production — releases, issue management, QA, documentation, customer feedback and performance reporting — to keep digital products reliable and consistent.
- **Workforce Planning:** Plan, budget, recruit and manage permanent, contractor and casual workforce to scale delivery capacity across changing demand.
- **Sports & Live Events:** Extensive experience in sport through GolfTrak and Melbourne Storm — understanding fan behaviour, match-day demands, commercial partnerships and high-attention digital environments.

Core skills

Digital production & operations | Intake & prioritisation | Requirements translation | Cross-channel delivery | Product delivery | Workforce planning | Vendor management | Agile delivery | Workflow management | Digital analytics | SEO | CRO & personalisation | Audience growth | Lifecycle marketing | Revenue growth | Lead generation | Content production | Email campaigns | Fan engagement | Stakeholder management | Team leadership | Documentation | AI workflows

Platforms and tools

AI-first workflow: I use AI to speed up research, requirement development, customer insight analysis, content production, documentation, testing and delivery planning.

Core stack: Jira, Figma, GA4, BigQuery, Segment, Adobe Suite, Salesforce, Hubspot, Klaviyo, Claude and OpenAI.

Broad hands on experience working across enterprise-grade digital ecosystems, including analytics, CRM and CDN alongside customer portals, email systems and social channels.

Experience

User Growth Lead - Acquisition, Content & Lifecycle | [GolfTrak](#)

Jan 2026 - Present

GolfTrak is an iOS golf app combining computer-vision analysis with a subscription model, helping golfers track and improve their game. I own acquisition, onboarding, lifecycle, content and partnership activity across the app, website, customer portal, app store, email, paid media, social and support channels.

- **Audience Growth:** Increased user growth by an average of 22% month-on-month.
- **Cost Optimisation:** Reduced CPI by 25% through acquisition testing, message improvements and creator-led campaigns.
- **Conversion Growth:** Improved subscription conversion through onboarding, lifecycle content and clearer value communication.
- **Lifecycle Marketing:** Built lifecycle concepts across setup support, trial education, feature adoption, inactivity, cancellation, reactivation and customer milestones.
- **Content Optimisation:** Improved website, app-store, onboarding and support content by analysing reviews, customer conversations and product usage.
- **Personalisation:** Used audience segmentation and personalisation — based on setup progress, trial status, subscription status, app activity and support signals — to improve conversion rates across onboarding and lifecycle touchpoints.
- **Analytics & Reporting:** Used Klaviyo, Segment, Firebase, GA4 and BigQuery to support lifecycle campaigns, reporting and user behaviour analysis.
- **AI Workflows:** Used AI tools to speed up content planning, insight synthesis, campaign development, documentation and customer support workflows.

Product Owner - iOS Mobile App | [GolfTrak](#)

Aug 2023 - Feb 2026

Led product ownership for GolfTrak from pre-launch through public release — the sports-tech product behind the app above.

- **Product Launch:** Took a product in development for 6+ years through public launch and grew it to 20,000+ downloads within six months.
- **Agile Delivery:** Led agile delivery across roadmap planning, feature scope, user stories, sprint delivery, release coordination, testing and product documentation.
- **Requirements Ownership:** Owned the intake, prioritisation and delivery of requirements across product, engineering, design, marketing, support, leadership and external partners.
- **Monetisation:** Introduced subscription and in-app purchase systems, reaching 30% free-trial adoption and 15% subscriber retention after trial.
- **Risk Management:** Worked directly with developers to identify delivery risks, resolve technical issues and balance customer value against effort and capacity.
- **Customer Communication:** Translated complex technical features into clear onboarding, support, marketing and customer education content.
- **Team Leadership:** Managed and supported a multidisciplinary team of up to seven people across product, design, content, marketing and customer experience.

Founder - Growth, Automation & Conversational Marketing | [Chat Response](#)

Feb 2015 - Jul 2023

Chat Response was a growth and automation consultancy I founded, helping ecommerce, sport and startup brands improve lead generation, customer journeys and conversion.

- **Delivery Management:** Managed projects from client request and initial brief through planning, production, launch, testing and reporting.
- **Lead Generation:** Increased lead generation for 24/7 Golf by 78% through improved funnel design and automated customer engagement.
- **Conversion Optimisation:** Improved sales conversion rates by 23% using better enquiry capture, follow-up messaging and customer education.
- **Revenue Growth:** Generated \$70K+ campaign revenue for The Masque Co. through targeted digital campaigns and audience segmentation.
- **Stakeholder Management:** Worked directly with founders, marketing teams, agencies, contractors and suppliers to manage priorities and deliver work within lean budgets.
- **Workforce Planning:** Built a contractor network to deliver client campaigns, scoping costs and capability into proposals to confidently pitch and deliver on expectations.

Digital Media Manager | [Melbourne Storm](#)

Sep 2011 - May 2014

Melbourne Storm is one of Australia's leading NRL clubs. I led the club's first digital media function, building its web, social, video, email and mobile presence from the ground up.

- **Digital Planning:** Managed daily digital production across the club website, social channels, video, email, mobile and match-day platforms.
- **Audience Growth:** Increased the average monthly website audience by 29% and video views by 61%.
- **Workforce Planning:** Built the club's first dedicated digital media department from a team of one to four and a half staff, recruiting and onboarding permanent and casual roles as digital demand grew.
- **Revenue Growth:** Shifted the department from a cost centre into a revenue-generating function, growing branded content and digital sponsorship revenue as partner attention and spend moved from traditional to digital media — while protecting existing broadcast and sponsorship relationships through the transition.
- **Prioritisation:** Balanced planned campaigns with breaking news, team announcements, live match coverage, sponsor requirements and changing business priorities.
- **Stakeholder Management:** Worked with media, commercial, membership, football, community and fan-engagement teams to deliver digital campaigns and content.

Education

- Master of Marketing - Victoria University
- Bachelor of Sports Administration - Victoria University
- Sports Management Semester Abroad - San Jose State University
