Includes work, product examples and case studies.

## Summary

Hands-on digital builder with 10+ years shipping websites, landing pages and growth improvements — the kind of high-agency operator who spots what needs doing and just does it, rather than waiting to be told.

I build and optimise web experiences end-to-end: standing up pages in block-based CMSs, writing and tightening on-brand copy myself, wiring up GTM and tracking, and owning the analytics that show whether it worked. AI tooling is genuinely part of my daily kit — I use Claude Code and AI workflows to prototype ideas, pressure-test them against data before committing, and ship faster. I've built my own self-hosted site ([danpinne.com](https://danpinne.com)) on Vercel with custom typography and DNS, run BigQuery and GA4 analytics, and built content and automation pipelines across multiple brands.

## Targeted fit for this role

- **Builder's Mindset & High Agency:** I see what needs doing and ship it — from launching a self-hosted portfolio site to standing up analytics dashboards and content automation without waiting for a brief.
- **Claude Code & AI Tools by Instinct:** AI isn't a novelty in my workflow — I reach for Claude Code and AI tools daily to prototype pages, generate and QA code, draft and tighten copy, and validate ideas against performance data before committing.
- **Website & Landing Page Delivery:** Build polished, on-brand website and campaign pages fast — including a full portfolio-site rebuild with custom fonts, image processing and DNS, plus client landing pages and funnels.
- **Block-Based CMS & HTML/CSS:** Comfortable building and shipping pages in block-based and templated systems, hand-editing HTML and CSS, and keeping sites fast, healthy and on-brand.
- **Copy & Brand Voice:** Write and adapt clear, on-brand page copy myself — I've built reusable copywriting workflows and produced web, email and campaign content across brands.
- **GTM & Tracking End-to-End:** Implement, manage and QA tags, set up campaign tracking, and keep data clean with tidy UTM governance and event checks.
- **Analytics & Reporting:** Own analytics and tell the story behind the numbers — GA4, BigQuery, Segment, Firebase and App Figures, including a custom BigQuery dashboard and an AI analytics assistant.
- **Scoping Work for Developers:** Write well-scoped tickets when something needs engineering and shepherd it through to ship — a habit from years of product ownership and agency delivery.
- **Conversion & Design Principles:** Apply core design and conversion principles when building and ideating on pages, testing hypotheses and iterating toward measurable lifts in traffic, conversion and signups.

## Core skills

Website building & optimisation | Landing pages | Block-based / templated CMS (WordPress, Vercel) | HTML & CSS | Claude Code & AI-assisted delivery | Prototyping | On-brand copywriting | Google Tag Manager | UTM & event tracking | GA4 & Amplitude-style analytics | BigQuery & Segment | Conversion optimisation | Ticket scoping | Reporting & storytelling | SEO hygiene

## Platforms and tools

**Build & AI:** Claude Code, Claude, OpenAI, WordPress, Vercel, GitHub, HTML/CSS, Figma, Python (content/automation tooling).

**Tracking & analytics:** Google Tag Manager, GA4, BigQuery, Segment, Firebase, App Figures, Looker Studio.

**Marketing & content:** Klaviyo, Shopify, Salesforce, Hubspot, Buffer, Adobe/CapCut content pipelines.

## Experience

### User Growth Lead - Web, Content & Lifecycle | [GolfTrak](#)

*Jan 2026 - Present*

Computer-vision golf app on a subscription model. I own web, growth, content and analytics across app, website, customer portal, app store and email.

- **AI-Assisted Delivery:** Use Claude Code and AI tooling daily to prototype pages and features, generate and QA code, and validate ideas against performance data before shipping.
- **Analytics Infrastructure:** Built reporting across GA4, BigQuery, Segment and Firebase — including a custom analytics dashboard and an AI assistant giving the team self-serve access to app data.
- **Tracking & Governance:** Implemented and QA'd tags and campaign tracking with clean UTM governance and event checks across web and app.
- **Growth Results:** Grew users an average of 22% month-on-month and cut acquisition cost 25% through page, message and creative testing.
- **Content Pipelines:** Built multi-brand content and automation pipelines (Buffer, Python, ffmpeg) to ship short-form content fast across channels.

### Founder - Web, Growth & Automation | [Chat Response](#)

*Feb 2015 - Jul 2023*

A consultancy I founded building websites, funnels and automation for ecommerce, sport and startup clients.

- **Website & Funnel Builds:** Built and shipped websites, landing pages and automated funnels end-to-end — design, copy, build, tracking and reporting.
- **Measured Results:** Rebuilt the 24/7 Golf customer journey, lifting lead generation 78%, time on site 233% and salesperson conversion 150%; improved conversion 23% and AOV 27% for high-value equipment.
- **Copy & Brand:** Wrote and tightened on-brand copy across pages, campaigns and email for clients spanning ecommerce, sport and startups.

- **Delivery & Scoping:** Scoped and managed developer and contractor work, translating rough briefs into shipped pages within lean budgets.

### Product Owner - iOS Mobile App | [GolfTrak](#)

*Aug 2023 - Feb 2026*

Owned product for GolfTrak from pre-launch through public release.

- **Product Delivery:** Took a product six years in development to public launch and 20,000+ downloads in six months.
- **Ticket Scoping & Ship:** Wrote well-scoped requirements and stories for developers and shepherded delivery through release and signoff.
- **Conversion & Monetisation:** Introduced subscription and in-app purchase systems, reaching 30% free-trial adoption and 15% retention after trial.

### Digital Media Manager | [Melbourne Storm](#)

*Sep 2011 - May 2014*

One of Australia's leading NRL clubs. I built the club's first digital media function across web, social, video, email and mobile.

- **Web & Platform Ownership:** Owned the club's website and digital platforms, including rebuilds and match-day products, working with vendors and the NRL's central team.
- **Audience Growth:** Increased average monthly website audience 29% and video views 61% through content, UX and channel optimisation.
- **Revenue Growth:** Shifted the function from a cost centre to a revenue-generating one through branded content and digital partnerships.

## Education

Bachelor of Sports Administration - Victoria University

Sports Management Semester Abroad - San Jose State University
