Summary

Lifecycle and retention marketer with 10+ years combining strategy, data and hands-on Klaviyo to drive repeat purchase, customer lifetime value and long-term engagement — ideally in ecommerce and DTC.

I own retention end-to-end: analysing repurchase behaviour and cohorts, mapping journeys across the full customer lifecycle, and building sophisticated Klaviyo flows with custom properties, segmentation and A/B testing. I treat SMS as a high-intent, low-frequency channel — I've used automated SMS and direct messaging to open conversations, lift response and pickup rates, and pull customers into quizzes and personalised offers. I keep the underlying data healthy so segmentation and targeting actually work, and I back myself to form recommendations from the numbers rather than waiting to be told.

Quad Lock's world is also mine — I'm an active, outdoors dad who spends his time on the golf course, in the ocean and getting my kids into wild places. I'm a genuine fan of building retention for products people are passionate about using.

Targeted fit for this role

- **Retention & Lifecycle Strategy:** 10+ years owning lifecycle and retention across enquiry, onboarding, repeat purchase, inactivity, win-back and reactivation — the full strategy this role drives.
- **Repurchase & Cohort Analysis:** Analyse repurchase behaviour, purchase frequency, value and cohorts to understand where customers lapse or repeat, then shape flows and campaigns and track against retention-specific targets.
- **Hands-On Klaviyo:** Proficient in Klaviyo — flow building, segmentation, custom properties, event-based triggers, A/B testing, reporting and third-party integrations, with reusable email-design and conditional-logic workflows.
- **SMS as a High-Intent Channel:** Manage SMS appropriately as a high-intent, low-frequency channel — including automated SMS and direct messaging that opens conversations, lifts response and pickup, and drives quizzes and personalised offers.
- **Send Calendar & Campaign Planning:** Plan and execute the send calendar, balancing promotional and lifecycle sends, coordinating with performance marketing to avoid cannibalisation and maximise impact.
- **Copy & Brand:** Strong copywriter — write and adapt on-brand email and SMS copy across customer segments and lifecycle stages, with reusable templates and briefing of creative teams.
- **Data & Retention Metrics:** Comfortable pulling reports, interpreting metrics and forming recommendations without needing someone to do it for me — repurchase rate, time-to-second-purchase, LTV and cohort analysis via GA4, BigQuery and Segment.

- **Database Health & Compliance:** Maintain a healthy, engaged database — deliverability, open rates, unsubscribe and spam-complaint rates, suppression lists, sunset flows and re-engagement — with email and SMS compliance across markets.
- **Technical Integration:** Support technical integration of Klaviyo with the broader stack, building automation flows off custom properties and event tracking, and partnering with developers on data layer and tracking work.

Core skills

Retention & lifecycle marketing | Klaviyo (flows, segmentation, custom properties, A/B testing) | SMS marketing | Repurchase & cohort analysis | Customer lifetime value | Send calendar planning | Email & SMS copywriting | Deliverability & database health | Segmentation frameworks | GA4 | BigQuery & Segment | Event tracking & data layer | Compliance | Reporting & recommendations | AI workflows

Platforms and tools

Lifecycle & CRM: Klaviyo (flows, custom properties, event triggers, A/B testing), SMS automation, Hubspot, Salesforce, Shopify.

Data & analytics: GA4, BigQuery, Segment, Firebase, App Figures, Looker Studio, event tracking and data-layer work.

AI-first workflow: I use AI to speed up cohort and customer insight analysis, flow and campaign development, copywriting, documentation and reporting — including reusable Klaviyo email-design workflows.

Experience

User Growth Lead - Lifecycle, Retention & Acquisition | [GolfTrak](#)

Jan 2026 - Present

Computer-vision golf app on a subscription model. I own lifecycle, retention, CRM and content across app, website, customer portal, email and SMS.

- **Retention & Lifecycle Flows:** Built Klaviyo lifecycle flows across trial education, feature adoption, inactivity, cancellation, win-back and milestones — improving retention and reactivation.
- **Cohort & Repurchase Analysis:** Analysed cohorts, activity and retention signals across GA4, Firebase, Segment and BigQuery to find where users lapse and shape targeted flows.
- **Segmentation & Custom Properties:** Segmented and personalised journeys by lifecycle stage, activity and support signals using custom properties and event triggers.
- **SMS & Messaging:** Used SMS and direct messaging as a high-intent channel to re-engage lapsing users and drive key lifecycle actions.
- **Reusable Workflows:** Built reusable Klaviyo email-design and copywriting workflows, including conditional logic for personalised template rendering.

Founder - Lifecycle, CRM & Automation | [Chat Response](#)

Feb 2015 - Jul 2023

A consultancy I founded helping ecommerce, sport and startup brands improve retention, customer journeys, lead generation and conversion.

- **Full Lifecycle Rebuild:** Rebuilt the end-to-end customer journey for 24/7 Golf, a high-value ecommerce retailer — unifying Shopify-style store, Klaviyo, lead scoring and Salesforce into one automated funnel with custom properties and segmentation.
- **Automated SMS & Direct Messaging:** Built automated SMS and direct-messaging journeys for the sales team to open conversations with prospects — lifting response and pickup rates and driving customers into quizzes and questionnaires that fed personalised offers.
- **Measured Results:** Lifted lead generation 78%, time on site 233% and salesperson conversion 150%; improved sales conversion 23% and average order value 27% on high-value equipment.
- **Segmented Campaigns:** Generated \$70K+ in campaign revenue for The Masque Co. through targeted, segmented lifecycle campaigns.

Product Owner - iOS Mobile App | [GolfTrak](#)

Aug 2023 - Feb 2026

Owned product for GolfTrak from pre-launch through public release, with a focus on onboarding, retention and lifetime value.

- **Retention & LTV:** Introduced subscription and in-app purchase systems, reaching 30% free-trial adoption and 15% subscriber retention after trial.
- **Onboarding Conversion:** Took a product six years in development to public launch and 20,000+ downloads in six months, optimising onboarding and trial conversion.

Digital Media Manager | [Melbourne Storm](#)

Sep 2011 - May 2014

One of Australia's leading NRL clubs. I built the club's first digital media function across web, social, video, email and mobile.

- **Audience Engagement:** Increased average monthly website audience 29% and video views 61%, building and retaining an engaged supporter base.
- **Email & Content:** Built email and content programs to grow and retain engaged audiences across owned channels.

Education

Bachelor of Sports Administration - Victoria University

Sports Management Semester Abroad - San Jose State University
