Summary

Digital leader with 12+ years' experience across eCommerce, digital fundraising, CRM, product and audience growth — spanning subscription apps, retail eCommerce, sport and not-for-profit fundraising.

I currently lead digital product and growth for GolfTrak, owning strategy across app, web, eCommerce-style conversion, CRM/lifecycle, analytics and content. My background combines hands-on digital leadership, team building, agency and technology partner management, and a track record of turning digital strategy into measurable engagement and revenue growth — the same mix this role calls for across FightMND's fundraising and supporter platforms.

Targeted fit for this role

- **Digital & eCommerce Leadership:** 15+ years leading digital, eCommerce and digital marketing functions — including building a digital department from the ground up and running GolfTrak's digital product and growth strategy end-to-end.
- **Digital Fundraising & Campaign Growth:** Directly comparable experience growing lead generation, conversion and revenue for retail and sport clients through campaign strategy, testing and optimisation — the same levers that drive supporter participation, donations and fundraising.
- **Supporter Journey & Conversion Optimisation:** Track record improving websites, onboarding and lifecycle journeys through UX, CRO, personalisation and mobile-first design, lifting conversion and retention across every role.
- **Seamless, First-Click-to-Loyalty Experiences:** Rebuilt a full customer journey for 24/7 Golf, unifying eCommerce, CRM and conversational data into one automated funnel that delivered the right message at the right moment — lifting leads 78% and salesperson conversion 150%.
- **Mobile-First, UX & Accessibility:** Delivered mobile-first, accessible digital experiences as standard practice — from a mobile golf app to club and campaign websites — grounded in usability testing and analytics.
- **Agency & Technology Partnerships:** Experienced managing external agencies, developers and platform vendors, translating strategy into delivery while holding partners accountable to timelines and outcomes.
- **Data-Driven Decision Making:** Use GA4, BigQuery, Klaviyo and Segment to uncover opportunities, test hypotheses and report performance — turning data into decisions rather than just dashboards.
- **Platforms:** Hands-on with Shopify, CRM systems (Salesforce, Hubspot, Klaviyo) and Google Analytics/GA4 — the core stack behind this role.
- **Team Leadership & Workforce Planning:** Built and led digital teams from scratch, including recruiting, onboarding and managing permanent, contractor and casual staff to match seasonal and campaign demand.

Core skills

Digital strategy & leadership | eCommerce (Shopify) | Digital fundraising | CRM (Salesforce, Hubspot, Klaviyo) | Digital marketing | Google Analytics / GA4 | UX & conversion optimisation | Accessibility | Mobile-first design | Agency & vendor management | Team leadership | Workforce planning | Reporting & dashboards | Campaign strategy | Content production | Stakeholder management | AI workflows

Platforms and tools

AI-first workflow: I use AI to speed up research, campaign development, customer insight analysis, content production, documentation and reporting.

Core stack: Shopify, GA4, BigQuery, Segment, Salesforce, Hubspot, Klaviyo, Figma, Jira, Adobe Suite, Claude and OpenAI.

Experience

User Growth Lead - Acquisition, Content & Lifecycle | [GolfTrak](#)

Jan 2026 - Present

GolfTrak is an iOS golf app combining computer-vision analysis with a subscription model. I own acquisition, onboarding, lifecycle, content and partnership activity across app, website, customer portal, app store, email, paid media, social and support channels.

- **Digital Growth:** Increased user growth by an average of 22% month-on-month and reduced acquisition cost (CPI) by 25% through testing, message improvements and creator-led campaigns.
- **Conversion Optimisation:** Improved subscription conversion through onboarding, lifecycle content and clearer value communication — directly analogous to lifting donor and supporter conversion.
- **CRM & Lifecycle Marketing:** Built lifecycle programs across setup support, trial education, feature adoption, inactivity, cancellation, reactivation and customer milestones using Klaviyo and Segment.
- **Personalisation:** Used audience segmentation and personalisation — based on lifecycle stage, activity and support signals — to improve conversion across onboarding and lifecycle touchpoints.
- **Digital Analytics & Reporting:** Used GA4, Firebase, Segment and BigQuery to build reporting and dashboards that support lifecycle, acquisition and product decisions.

Product Owner - iOS Mobile App | [GolfTrak](#)

Aug 2023 - Feb 2026

Led product ownership for GolfTrak from pre-launch through public release.

- **Product & Digital Delivery:** Took a product in development for 6+ years through public launch, growing it to 20,000+ downloads within six months.
- **Mobile-First Product Design:** Led agile delivery of a mobile-first product across roadmap planning, UX, sprint delivery, release coordination and testing.
- **Team Leadership:** Managed and supported a multidisciplinary team of up to seven across product, design, content, marketing and customer experience.
- **Monetisation:** Introduced subscription and in-app purchase systems, reaching 30% free-trial adoption and 15% subscriber retention after trial.

Founder - Growth, Automation & Conversational Marketing | [Chat Response](#)

Feb 2015 - Jul 2023

Chat Response was a growth and digital marketing consultancy I founded, helping eCommerce, sport and startup brands improve digital marketing, lead generation, customer journeys and conversion.

- **Customer Journey Optimisation:** Rebuilt the full customer journey for 24/7 Golf, a high-value eCommerce golf retailer, unifying eCommerce, Klaviyo and conversational data with lead scoring and Salesforce into one automated funnel — nurturing and educating customers long before a salesperson stepped in.
- **Personalised, Right-Time Communications:** Used behavioural and lead-scoring data to trigger conversational marketing and email at the right moment in the journey, lifting lead generation 78%, average time on site 233% and salesperson conversion 150%.
- **Conversion & Revenue Optimisation:** Improved sales conversion rates by 23% and average order value by 27% (on \$3K+ high-value equipment) using better enquiry capture, follow-up messaging and customer education.
- **Digital Revenue Growth:** Generated \$70K+ campaign revenue for The Masque Co. through targeted digital campaigns and audience segmentation.
- **Agency & Technology Partner Management:** Worked directly with founders, marketing teams, agencies, contractors and platform suppliers to manage priorities and deliver work within lean budgets.
- **Workforce Planning:** Built a contractor network to deliver client campaigns, scoping cost and capability into proposals so I could confidently pitch and deliver against expectations

Digital Media Manager | [Melbourne Storm](#)

Sep 2011 - May 2014

Melbourne Storm is one of Australia's leading NRL clubs. I led the club's first digital media function, building its web, social, video, email and mobile presence from the ground up — a close parallel to leading a purpose-driven digital function inside an established organisation.

- **Digital & Team Leadership:** Built the club's first dedicated digital media department from a team of one to four and a half staff, recruiting, onboarding and managing permanent and casual roles as demand grew.
- **Supporter Engagement & Growth:** Increased average monthly website audience by 29% and video views by 61%, deepening fan engagement across owned digital channels.
- **Digital Revenue Growth:** Shifted the department from a cost centre into a revenue-generating function, growing branded content and digital partnership revenue as attention and spend moved from traditional to digital media.
- **Stakeholder & Partner Management:** Worked with media, commercial, membership, football and community teams — plus external agencies and partners — to deliver integrated digital campaigns and content.

Education

- Bachelor of Sports Administration - Victoria University
- Sports Management Semester Abroad - San Jose State University
